Manufactured By

ALABAMA FARMERS COOPERATIVE, INC.

Decatur, Alabama 35601

Feeding Directions:

Feed at the rate of 4 to 6 pounds per head per day.

Important Management Practice

Provide a source of fresh clean water at all times. When making any change in an animals diet, plan a 7 to 10 day transition period. Also, feeders should be protected to prevent feed from becoming wet and moldy. Moldy or insect-infected feed may cause illness, abortion, or death.
