Ruminant Meat and Bone Meat Free	
Feeding Directions	
<p>Feeding rates range from two to five pounds per acre per day. Monitor the feeding activity and gradually increase the rate as activity increases. The total daily feeding rate should not exceed ten pounds per acre per day. Heavier feeding rates would require aeration to prevent oxygen problems.</p> <p>Store in a dry ventilated area. Never feed insect infested or moldy feed. Do not over feed.</p>
