### SS003811 Feeding Directions

Feed Formax Medicated BOVATEC free choice continuously to pasture cattle (slaughter, stocker, and feeder cattle, and dairy and beef replacement heifers) to provide 60-200 mg lasalocid per head daily. Pasture conditions and mineral feeder placement should be adequate to ensure a minimum consumption of 1.34 and a maximum of 4.44 ounces per head daily which will provide from 60 to 200 mg Lasalocid per head daily.

**WARNING:** A withdrawal period has not been established for this product in pre-ruminating cattle. Do not use in calves to be processed for veal.

**CAUTION:** The safety of Lasalocid for use in unapproved species has not been established.

**WARNING:** This product, which contains added copper, should not be fed to sheep or any species with a low tolerance to supplemental copper.

**CAUTION:** Follow label directions.

Consumption of selenium should not exceed 3 mg per head per day.
