FOR MATURE HORSES

Guaranteed Analysis

Crude Protein	(Min)	14.00	%
Crude Fat	(Min)	7.00	%
Crude Fiber	(Max)	14.00	%

Ingredients

Processed Grain By-Products, Roughage Products, Grain Products, Plant Protein Products, SOY OIL, Calcium Carbonate, Animal Fat, Dicalcium Phosphate, Salt, TIZ WHIZ 10 and KAOLIN.

Feeding Directions

Feed to horses at the rate of .5 to 1.5 lbs. per 100 lbs. bodyweight depending on the quality and quantity of other feedstuffs available and the intended use of the horse. Do not feed free choice to any animal. Provide good quality hay or pasture.

IMPORTANT MANAGEMENT PRACTICES: Always provide a fresh source of clean water, salt and free choice minerals at all times. When making any change in an animal's diet, plan a 7 to 10 day transition period. Do not allow feed to stay in feeder for a period of longer than 3 days. When feeding large amounts of this feed (over 5 pounds per day) split the feeding amount into two different feedings to reduce the incidence of colic. Poorly managed feeding programs can lead to nutritional disorders.
