

Triple Crown Lite Formula

A pelleted concentrate to balance the nutritional requirements of forage-only diets

Triple Crown Lite is ideal for easy keepers—horses that maintain their weight on very little grain or just grass and hay. Normally, a horse would have to eat 5-6 lb. of grain to derive a sufficient amount and a proper balance of vitamins and minerals. This is especially true of growing horses, broodmares, stallions and working horses. Triple Crown Lite is so heavily fortified, you can feed a horse as few as 2 lb. per day. This formula is also ideal for ponies and miniature horses. *Available in 50 lb. bags.*

Ingredients

Wheat Middlings, Soybean Hulls, Alfalfa Meal, Distillers Dried Grains, Ground Limestone, Monocalcium Phosphate, Dicalcium Phosphate, Salt, Yeast Culture, Hydrolyzed Yeast, Hydrated Sodium Calcium Aluminosilicate, Dried Lactobacillus Acidophilus Fermentation Product, Dried Enterococcus Faecium Fermentation Product, Anise Seed, Fenugreek Seed, Dried Trichoderma Longibrachiatum Fermentation Extract, Dried Bacillus Subtilis Fermentation Extract, Zinc Proteinate, Manganese Proteinate, Kelp Meal, Copper Proteinate, Lecithin, Magnesium Oxide, Iron Proteinate, Magnesium Proteinate, Selenium Yeast, Ferrous Sulfate, Zinc Sulfate, Manganese Sulfate, Calcium Carbonate, Copper Sulfate, Cobalt Sulfate, Ethylenediamine Dihydroiodide, Brewers Dried Yeast, Vitamin E Supplement, Ascorbic Acid (source of Vitamin C), Niacin Supplement, Biotin, Vitamin A Supplement, Thiamine Mononitrate, Beta Carotene, Calcium Pantothenate, Riboflavin Supplement, Pyridoxine Hydrochloride, Vitamin B₁₂ Supplement, Vitamin D₃ Supplement, Choline Chloride, Menadione Sodium Bisulfite Complex (source of Vitamin K activity), Folic Acid, Flaxseed, L-Lysine. Free from Restricted Ruminant Protein Products per Title 21, CFR 589.2000/2001.

Feeding Directions

Triple Crown Lite is designed to be a palatable feed for horses that will provide a desired intake level of supplemental minerals and vitamins without encouraging excessive weight gain. It should be fed to horses that have a tendency to become overweight or are receiving less than 4 lb. of grain per day. Feed in combination with hay and/or pasture, salt and fresh, clean water. If feeding more than 5 lb. of grain daily in order to maintain desired body condition, Triple Crown Lite is not recommended.

MATURE HORSES: Feed 1-2 lb. of Triple Crown Lite per 500 lb. of body weight per day. If more than 4 lb. is required to maintain desired body condition, switching to another Triple Crown formulation such as Low Starch may be necessary.

PONIES AND MINIATURE HORSES: Feed 1 lb. of Triple Crown Lite per 500 lb. of body weight and adjust feeding rate to maintain desired body condition.

CAUTION: In order to avoid excessive mineral and vitamin intake, DO NOT feed more than 5 lb. of Triple Crown Lite per day. Chronic intake of excess minerals and/or vitamins can adversely affect the health of your horse.

NOTE: Provide plenty of fresh, clean water at all times. Keep product fresh in cool, dry storage. Examine product daily. DO NOT if old, moldy or contaminated with insects.
