Guaranteed Analysis

Crude Protein	(Min)	12.00	%
Crude Fat	(Min)	3.00	%
Crude Fiber	(Max)	24.00	%

Ingredients

Processed Grain By-Products, Roughage Products, Forage Products, Grain Products, Calcium Carbonate, Salt, KAOLIN, Animal Fat, Vitamin A Supplement, Vitamin D3 Supplement, Vitamin E Supplement, Ferrous Sulfate, Manganous Oxide, Zinc Oxide, Copper Sulfate, Solium Selenite, Manganese Sulfate, Calium Iodate, Cobalt Carbonate and Mineral Oil.

Feeding Directions

Feed to horses at the rate of .5 to 1.5 lbs. per 100 lbs. bodyweight depending on the quality and quantity of other feedstuffs available and the intended use of the horse. Do not feed free choice to any animal. Provide good quality hay or pasture.

CAUTION

Do not feed to sheep due to copper levels in this feed.

IMPORTANT MANAGEMENT PRACTICES: Always provide a fresh source of clean water, salt and free choice minerals at all times. When making any change in an animal's diet, plan a 7 to 10 day transition period. Do not allow feed to stay in feeder for a period of longer than 3 days. When feeding large amounts of this feed (over 5 pounds per day) split the feeding amount into two different feedings to reduce the incidence of colic. Poorly managed feeding programs can lead to nutritional disorders.
