

STIMU-LYX®

SOUTHEASTERN BRANDED SUPPLEMENT

**Formulated for Animals on
Southeastern Forages**

CALCULATING YOUR FEED COST ON A DAILY BASIS

Supplementation cost should be figured on a cost per head basis. The cost of feed on a ton basis may not be your most cost effective solution to your supplementation program. Know your cost per head per day to select your best supplementation program.

$$\begin{array}{l}
 1. \ \$ \underline{\hspace{2cm}} \div \underline{\hspace{2cm}} = \underline{\hspace{2cm}} \\
 \text{(cost per barrel)} \qquad \qquad \qquad \text{(wt. per barrel)} \qquad \qquad \qquad \text{(cost per pound)} \\
 2. \ \$ \underline{\hspace{2cm}} \times \underline{\hspace{2cm}} = \underline{\hspace{2cm}} \\
 \text{(cost per pound)} \qquad \qquad \qquad \text{(intake per head, per day)*} \qquad \qquad \qquad \text{(Cost per head, per day)}
 \end{array}$$

*Typical consumption will vary from .50 lb./hd./d to 1.0 lb/hd/d
 Example: \$70 per container of SIMU-LYX® ÷ 200 = \$0.35 per pound
 .75 lb./hd./d intake x \$0.35/lb. = \$0.265 per head, per day

Compare STIMU-LYX@ to Other Supplement Options

	Cost/Ton	÷ 2000 =	Cost/Pound	X	Lb. Hd./D	=	Cost/Hd./D
STIMU-LYX@	_____	÷ 2000 =	_____	X	_____	=	\$ _____
Commodities	_____	÷ 2000 =	_____	X	_____	=	\$ _____
Complete Feeds	_____	÷ 2000 =	_____	X	_____	=	\$ _____
Liquid	_____	÷ 2000 =	_____	X	_____	=	\$ _____
Other	_____	÷ 2000 =	_____	X	_____	=	\$ _____

Example: Feed: \$300/ton ÷ 2000 = \$0.15/lb. x 4.0 lb./hd./d = \$0.60 cost/hd./d
